Galaxeo® Sports Edition/ Speed Regeneration

Schumann 30 Resonance Systems/ Bioregulation for Peak Performance & Longevity

Galaxeo® is the world's first fusion of inversion technology and **Schumann 3D Resonance-** built to deliver an **elite-level *reset* for high performers** and to **recharge the human battery.**

The Key: The primary Schumann Resonance at **7.83 Hz** (*"Heartbeat of mother Earth"*) is widely regarded as most important biological rhythm in nature which resonates with most of the human systems in their fundamental vibrational state. Galaxeo's Schumann 3D Resonance Systems deliver this frequency through soft, clockwise, three-dimensional micro-oscillations—creating gentle vortex dynamics (**Bio-Dynamical-Energy-System / BDES**) throughout the **entire human biological ecosystem**. The result: a deep return to the divine order, coherence, functional harmony and support of all spiraldynamik aspects in the human body.

Through these vortex dynamics, the body's **~240 fluids** are encouraged toward **hexagonal structuring** with all its essential benefits; it additionally functions (better exploitation of bioactive light frequencies) as a **Biophoton Enrichment System (B.E.S.)** supporting cellular communication, synchronization, modulation, and regulation. In addition, users benefit from the purple **VioleTesla crystal plates** not only through the **antioxidant** and **anti-inflammatory earthing-** effect but also via the **Tesla scalar-field bridge into the quantum phase/blueprint.**

For footballers, cyclists, and top performers of all kind, the benefits are game-changing:

- **Spinal decompression and anti-gravity & joint relief** → faster recovery, injury and surgery prevention, in some cases regained height (+1–2 cm). Helps even release adhesions between internal organs.
- **Elasticity, mobility, balance & sure-footed stability** → releases muscles, tendons, and fascia for cleaner and easier movement mechanics. With therapists' expertise it initiates full spine

Unit 906, 9/F Hewlett Centre, 54 Hoi Yuen Road, Kwun Tong, Kowloon, Hong Kong

regeneration.

- **Occiput–anterior simulation** → recreates the overhead inversion orientation seen in the 6 weeks prior birth, amplifying the benefits of inversion–based training (e.g. overhead yoga/visceral fat/body form) promoting a "Nature–reset" harmony for organs and glands while maximizing brain blood flow
- **Hexagonally structured body fluids–often described as a "holy grail" of health** → supports all fluids, connective tissues and self–regulation, acid balance, neutralizes free radicals, improves oxygen and nutrient delivery, supports detox and waste removal; is the most important converter of quantum field potentialities. Combined with BDES, it supports protection against premature aging, arthrosis, immobility, arteriosclerosis, cancer, neurological decline (often described as a "brain drainage effect").
- **Up to 44% more oxygen in the blood** → delayed anaerobic threshold, greater endurance, and stronger sustained output, significantly postponing anaerobic phase.
- **EZ–water effects at cell and mitochondrial membranes** → charge separation (outside+ / inside–) supporting natural battery–like energy storage, enhanced by sunlight and Infrared and NIR activation. More EZ–Water means more hydrogen protons and thus more mitochondrial ATP /energy production!
- **Ideal microcirculation & fluid flow** → quicker clearance of lactic acid and metabolic waste, faster healing of muscle micro–tears.
- **Structured cellular water & biophoton support (DNA+ mitochondria)** → improved energy transfer, DNA repair support, mitochondrial performance, synchronization, regulation
- **Parasympathetic activation** → deep regeneration, improved digestion, immune support, restorative sleep, self–healing processes and rapid stress release.
- **Pineal gland activation and recalibration & hormone reset** → enhanced melatonin production for recovery, deeper regenerative sleep, balanced metabolism, renewed vitality. sharper intuition.

Unlike vibration platforms, **Galaxeo works through gentle resonance–not**

force—with zero risk of vessel overload or damage. Instead, it aims to restore order, coherence, and energy at the cellular level. The promise: **maximum regeneration—at record speed.** For athletes at the peak of their career—and for legends extending theirs—Galaxeo offers a true second chance: **longer careers, faster recovery, fewer injuries, more energy, peak performance and a sharper mind.**

A revolutionary approach in sports: **Train. Recover. Upgrade – Simultaneously.**

Galaxeo®– The Key to Regeneration, Performance, Vitality and Longevity.
