Schumann 3D Systems / Bioregulation of the Highest Order / Pure Regeneration®pz

It is estimated that **94% of all medical consultations** and the majority of sick days in work or sports are based on **stress impulses**. This constant **tension** affects not only muscles, tendons, fascia, joints, and the spine, but also **the entire energy balance, all organs and body systems** including basic regulation, immune response, self-healing, and even **cognitive performance**.

A gentle **deceleration and release of blockages** – even of deep-rooted trauma – through the **natural Schumann frequency** offers an **effective, holistic solution** for both body and mind in full harmony with nature. Rebalance from *fight or flight* into the *rest, repair, digest mode*.

For over **15 years**, the **Schumann 3D Systems**, *made in Germany*, have proven themselves as a **regenerative biodynamic energy system** for everyone — from young to old. They are, in essence, the **exact opposite** of the purely stimulation-based vibration platforms found in most gyms working with significant higher frequencies and mostly two-dimensional.

Through **resonance effects** with organs, body systems, and especially all bodily fluids, Schumann 3D Systems trigger **instant, deep regeneration in record time**. Just **5–10 minutes per day** are enough!

This effect is based on the **scientific, intelligent use of gentle, three-dimensional, spiral, right-rotating sinus wave oscillation patterns** derived from the **primary Schumann frequency of 7.83 Hz**, enhanced by over **30 additional parameters**.

This **7.83 Hz** frequency – often called the *heartbeat of Mother Earth*

was identified by **Prof. König** (TU Munich) as the **most vital biological frequency** for all living organisms.

Additionally, energy fields are **modulated onto the crystal plates** (Plus and VioleTesla Systems) with **Earthing** and even **Tesla 3–6–9 effects**, resulting in **strong antioxidative, anti-inflammatory, and even subtle energetic benefits with reconnection to the native blueprint in the quantum phase.**

Simultaneously, **water molecules at cell membranes** are structured **hexagonally**, forming a natural **bio-battery** through charge separation (- at the membrane / + in the volume).

The following regenerative processes are immediately supported:

1. Instant recovery, relief, revitalization, mobilization, and **re-hydration** (drink water simultaneously!)
2. Deep, **regenerative sleep** – initiation of rejuvenation processes, better memory, and optimized dream phases
3. Gentle **release of blockages** in muscles, tendons, fascia, vertebrae
4. Noticeably **improved mobility and elasticity** — more space for discs and joints
5. Enhanced **balance** and stability — extended life expectancy (studies from Brasil)
6. Activation of muscle tone / **release of myokines** (muscle messenger substances)
7. Brain in *creative relaxation* (low-alpha state) leading to:
 - Activation of the **vagus nerve** and **parasympathetic system** → regeneration
 - Strengthened **immune system**, release of regenerative hormones & enzymes

Unit 906, 9/F Hewlett Centre, 54 Hoi Yuen Road, Kwun Tong, Kowloon, Hong Kong

- Improved **digestion and metabolism** (*rest and digest mode*)
 - Support of all **detox processes** — purification, **extracellular matrix** (> 10l) lymphatic flow, cellulite reduction; activating and optimizing the lymphatic system / brain drainage
 - Optimization of **self-healing** and **cellular regulation**
 - Activation of **rejuvenation and stem cell regeneration**
8. Reset of all **biological rhythms** back into natural harmony (circadian/craniosacral)
 9. Noticeably improved **microcirculation** across all ~240 body fluids
 10. Higher **energy levels** via optimized oxygen & nutrient supply
 11. Activation of **piezoelectric properties**, connective tissue, pineal gland => energy
 12. Reduction / elimination of **chronic inflammation** and pain
 13. Opening & activation of the **pineal gland** – intuition, creative clarity, regeneration through melatonin and consciousness molecules like DMT; jetlag recovery
 14. **Prevention** of civilization diseases (cardio-vascular, neuro-degenerative, cancer)

Reconnecting to the **vital Schumann Resonance** / cosmic condition for life , maximizes health protection – even against harmful **electrosmog (4G & 5G)**/ Prof. Pöggeler.

Over **200 people no longer need their walkers**, and many upcoming spinal or joint surgeries have been avoided through **Orthopedic Schumann Therapy by Dr. Egmar Herth**, focusing on true **root-cause treatment**. He can initiate full spinal regeneration.

At the same time, the system creates the **ideal foundation** for deep

sleep, meditation, yoga, breathwork, affirmations, and peak performance in **work, sports, and leisure**.

The same applies to **animals like dogs, cats..., even horses (Zentaurio Systems)**.

All these effects are now further enhanced by **Balanceo** (main focus here is practise and spiral dynamiks) and **Galaxeo**, this inversion position is integrating **decompression and anti-gravity phenomena** for the next level of bio-regeneration. The last six weeks prior to birth we are in this inversion position; our organism remembers and resets (e.g. glands, metabolism processes) back to this native phase.

Hexagonal Water — Key to Health · The Holy Grail of Regeneration · Re-Aging Factor No. 1

Hexagonal Water (H-Water) is a six-sided, honeycomb-like water cluster — a liquid crystal with extraordinary information and energy storage properties. It represents the **pure, crystalline water of evolution** — fresh, uncontaminated, vital spring, mountain, and glacier water, often carrying **levitation forces**.

Within the human organism, it creates **stunning biological effects**:

- **Neutralizes acidity:** Strong negative charge → alkaline effect → balances over-acidification (affecting \approx 80-85% of the population).
- **Neutralizes free radicals:** Rich in free, delocalized electrons → powerful antioxidant → neutralizes radicals naturally, even inside the mitochondria (too many cause aging)

- **Optimizes fluidity and hydration:** Enhances viscosity and flow of all 240 body fluids → deep cellular re-hydration → optimal microcirculation and waste removal (e.g. protein debris in the brain / protection against alzheimers, dementia, parkinson).
- **Delivers 3× more energy** than ordinary water → boosts endurance.
- **Contains 44% more oxygen** (H^3O^2 structure) → increases energy levels.
- **Exclusion Zone (EZ) properties:** Enhance all detox processes in organs, blood, and connective tissue (the key area of basic regulation) and **prevent re-contamination**.
- **Charge separation at cell membranes** (- membrane / + fluid) stabilizes ion gradients → sustains vital **membrane potentials** / **works as a natural battery** / **sunlight!**
- **Prevents** immobility, arteriosclerosis, cancer, Alzheimer's, dementia, and Parkinson's.

Scientific background:

Since 1960 – research into Hunza water by Prof. Jhon, Dr. Flanagan, Dr. Emoto, Dr. Pollack, Dr. Warnke, B. Kröplin, Sayer Ji (*greenmedinfo.com*), Dr. Thomas Cowan, and Lynne McTaggart.

H-Water perceives **bio-active light frequencies** beyond the human eye — including **infrared frequencies** that activate the body's natural water-battery through sunlight. Its **absorption peak at 270 nm** is identical to healing waters with restorative properties, promoting **new mitochondria formation** and **natural vitamin D³ production**.

H-Water is the **super-molecule of perception, information, and energy transfer:**

- **Transduces mechanical oscillations** (heartbeat, pineal gland),

- **Sound frequencies** (healing tones),
- **Light & electromagnetic fields**,
- **Converts subtle information and “free energy” from the quantum vacuum** – the *sea of all causes and possibilities* – into **biological matter** (*Dr. Warnke*).

It **optimizes nutrient and oxygen transport, cell communication, and the function of proteins and DNA**, ensuring their natural unfolding of the **3D geometry** – a decisive factor for **cancer prevention** (Thomas Cowan / „Cancer and the new biology of water“).

Its **EZ properties at membrane boundaries** prevent contamination by micro- and nano-toxins (plastics, glyphosate, fluorides, aluminum, pathogens, viruses, bacteria) while serving as the body’s **No. 1 detox catalyst**.

H-Water rejuvenates connective tissue, generates electrons for mitochondrial energy flow, and channels **“free energy”** into the biological system – acting as a **living catalyst of perpetual energy renewal and longevity optimization up to 120 years**. According to also the findings of Prof. Dr. David Sinclair (confirmed even by WHO) *„Aging is a treatable disease“*.
